Media Blast

- 28'L x 13'6"W x 12' H
- Aluminum oxide
- 220 CFM blaster
- 5/8" nozzle
- 60 hp air compressor (dry)

Pre-Treatment Booth

- 30'L x 11'4"W x 10'7" H
- 4-stage heated and high-pressure filtration system
- Alkaline, rinse, zirconium, and R.O. rinse

Powder Booth

- 30'L x 14'W x 12' H
- 2 x Wagner Prima Sprint gun spraying systems
- Multiple finishes/powders: primer, matte, satin, semi, gloss, wrinkle, high texture, clear
- Many colors in stock
- Custom colors available

Cure Oven

- 30'L x 10'W x 12' H
- 450 degree max
- Climate controlled

In-House Fabrication Capabilities

Riveer offers comprehensive in-house fabrication and assembly services backed by a skilled team and advanced equipment. Our facility is equipped with a fiber laser, CNC plasma table, press brake, MIG and TIG welding stations, tube rolling and bending tools, drill press, and 20-ton capacity overhead crane for heavy load handling. Our experienced fabricators are skilled in both repeat production and one-of-a-kind custom work.

From concept to completion, Riveer has the expertise and equipment to bring your project to life.

6 kW Baykal Fiber Tube Laser

- BLC2560-80
- Can cut 24' L x 8.625" diagonal structural pipe, square, or rectangular tubing
- Sch. 10 to Sch. 40 pipe
- 1/4" thick wall for mild and stainless steel
- Auto loader

6 kW Baykal Fiber Flat Laser

- 20' L x 8' W bed with 2 beds
- Can cut up to 1" quality mild steel and 3/8" stainless plus 1/4" aluminum
- Tread/diamond or smooth plate

240 Ton Baykal CNC Brake Press

- Full CNC 7 Axis Baykal 41240T
- 12' length bending capacity up to 1/4"
- 6' length bending capacity up to 1/2"
- 13' between housings
- 12" open height for less than 1/8" steel
- 8" open height for up to 1/4"
- 4" open height for up to 1/2"
- High clearance dog leg for up to 1/8"

Koike Aronson CNC Plasma Table

- Hypertherm HPR130XD
- 20' L x 8' W downdraft table
- HyDefinition technology
- Tru Hole capability
- Cuts up to 1/2" stainless
- Cuts up to 3/4" mild steel
- Shape cutting control

MillerMatic 252 and 350PWelder

- MIG
- Mild steel
- Stainless steel
- Aluminum
- Up to 3/4" thick sheet

MillerMatic Syncrowave 350 LX

- TIG
- Stainless steel and aluminum
- Up to 1/2" thick sheet or pipe

Ercolina TB-60 Tube Bender

- Mild steel 1" to 1 1/2" square tube
- 1" or 2" Sch. 40

**Scotchman Ironworker
50514-CM**

- 50 ton punch station
- 6" throat depth
- Punch nut with wrench and stripper
- Angle shear

KMT H275 Band Saw

- Mitters up to 60°
- Blade speeds 65-320
- 10' 1" blade length
- Max vise opening 11"

Clausing Drill Press

- 900-1800 rpm with reverse
- 20" table
- 3MT spindle
- Drill up to 1"
